EDUCATION

MASTERS IN INFORMATION TECHNOLOGY (2012-2014)

The field of my research in the post-graduation degree was "The role of the efficient interface in medical applications."

BACHELORS IN COMPUTER SCIENCE (2010-2012)

I had 4.0 CGPA in my undergraduate degree. My project got the first position at the international level that helped me win a gold medal.

EXPERIENCE

GRAPHIC DESIGNER (2016-2020)

I led a team that focused on providing designs to e-commerce websites. Completed most orders in a 6-month period and won the perfect designer award.

WEB DESIGNER (2014-2016)

I worked on testing and improving their websites' designs. Worked with different content management systems and prepared plans for website structure and design.

GRAPHIC DESIGNER (2012-2014)

I created original graphic designs, including images, sketches, and tables. I've built page navigation buttons and search fields.
