PROFESSIONAL PROFILE

Reliable, qualified, and experienced graphic designer working mainly in the IT industry, particularly in software houses. Excellence in creativity, problem-solving, time-management, and technical skills. Offering industrial exposure and providing design solutions for a broad range of webmasters and app developers. Works well with the team of graphic designers, and highly participative in business meetings.

EXPERIENCE

GRAPHIC DESIGNER

Eworkx, United States

I led a team of thirteen designers. Developed 400+ graphic design projects and increased clients' orders by an average of 30%.

UI/UX DESIGNER

ITSolutions, United States

I designed multiple clients' webpages and used InDesign, Illustrator, and Photoshop to produce graphic and typographic elements.

EDUCATION

MASTERS IN COMPUTERS SCIENCE

University of California, Los Angeles

The title of my thesis was "evolution of front-end tools." It was given much praise and appreciation and was granted 10/10.

BACHELORS IN COMPUTERS SCIENCE

Brandman University

My CGPA remained 4.0 throughout the degree. The final year project of my degree was "online learning management system," and I designed a perfect interface.
